Space and Civil Society:
The Case of Secure World Foundation

Dr. Michael Simpson  
Executive Director  
Secure World Foundation  
UNISPACE+50 Symposium  
18 June 2018
The secure and sustainable use of the space domain.

We work toward this by:

- increasing the knowledge about the space environment and the need to maintain it

- promoting international cooperation and dialogue

- helping all space actors realize the benefits that space can provide.
Challenges

• Salience

• Credibility

• Competition
Yet again more communication
And some of the most effective communication

Listening
Narrowing the Gap

Advocacy and Inclusion

Building Capacity and Expectation
Spreading the benefits of Cooperative Solutions for Space Sustainability
Let’s improve one small neighborhood together.
