

AMOS Dialogue

Thursday, September 12, 2013

Vanda Meeting Room, The Wailea Beach Marriott Resort & Spa

**Co-hosted by the Maui Economic Development Board (MEDB) and Secure World Foundation (SWF)
At the Advanced Maui Optical and Space Surveillance Technologies (AMOS) Conference, Maui, Hawaii**

- 730 – 740 Welcome and Introduction
 Jeanne Skog, President, MEDB
 Victoria Samson, Washington Office Director, SWF
- 740 – 900 Session 1: Overview of SSA services
 Overview of current services offered by some of the major SSA providers to support safety of spaceflight and scientific research into the space environment. Brief update on future plans for expanding their capabilities.
- Moderated Discussion
 Where are the major SSA providers going in terms of services and offerings? Are there opportunities for collaboration and cooperation among current SSA providers? What trade-offs exist between building new capabilities and expanded collaboration?
- 900 – 915 Coffee Break
- 915 – 1045 Session 2: Overview of End User Needs
 Perspectives from SSA end users in the satellite operations and scientific community on what SSA capabilities they need to operate safely and efficiently in the space environment.
- Moderated Discussion
 Are the current SSA services helping satellite operators make informed decisions about risks in space? Are end users confident in the quality of current SSA services?
- 1045 – 1100 Conclusion
 Brian Weeden, Technical Advisor, SWF
- 1100 Adjourn for Luncheon (Lokelani Ballroom)
 Co-sponsored by Universities Space Research Association
