

2015 AMOS Dialogue in Maui

Thursday, September 17, 2015

Mauna Loa Room

The Wailea Beach Marriott Resort & Spa

Co-hosted by the Maui Economic Development Board (MEDB) and Secure World Foundation (SWF)
At the Advanced Maui Optical and Space Surveillance Technologies (AMOS) Conference, Maui,
Hawaii

1420 Welcome and Introductions

Jeanne Skog, President, MEDB

Brian Weeden, Technical Advisor, SWF

Recap of Previous Dialogues – Victoria Samson, Washington Office Director, SWF

1430 Session 1: Assessment of current SSA and STM practices, policies, and capabilities

Are current SSA data and services available to operators and government sufficient to provide for sustainable and safe space activities? Which areas are priorities for improvement, and what are the emerging challenges? Are existing international and national laws and policies sufficient to provide for oversight of space activities and STM?

Moderated Discussion – Brian Weeden, SWF

1530 Coffee Break

1545 Session 2: Towards improving governmental, industry, and international engagement and cooperation to enhance SSA and STM

What steps can be taken by governments and operators to improve availability of SSA data and services? Should there be agreement at the international level on STM before developing national practices, policy, and regulations?

Moderated Discussion – Victoria Samson, SWF

1645 Conclusion

Brian Weeden, Technical Advisor, SWF

1700 Adjourn for Exhibit and Poster Session (Aulani Ballroom)
