European Space Policy
Institute
Austria

Guoyu Wang
Beijing Institute of
Technology
China

Danielle Wood
Massachusetts Institute
of Technology
United States

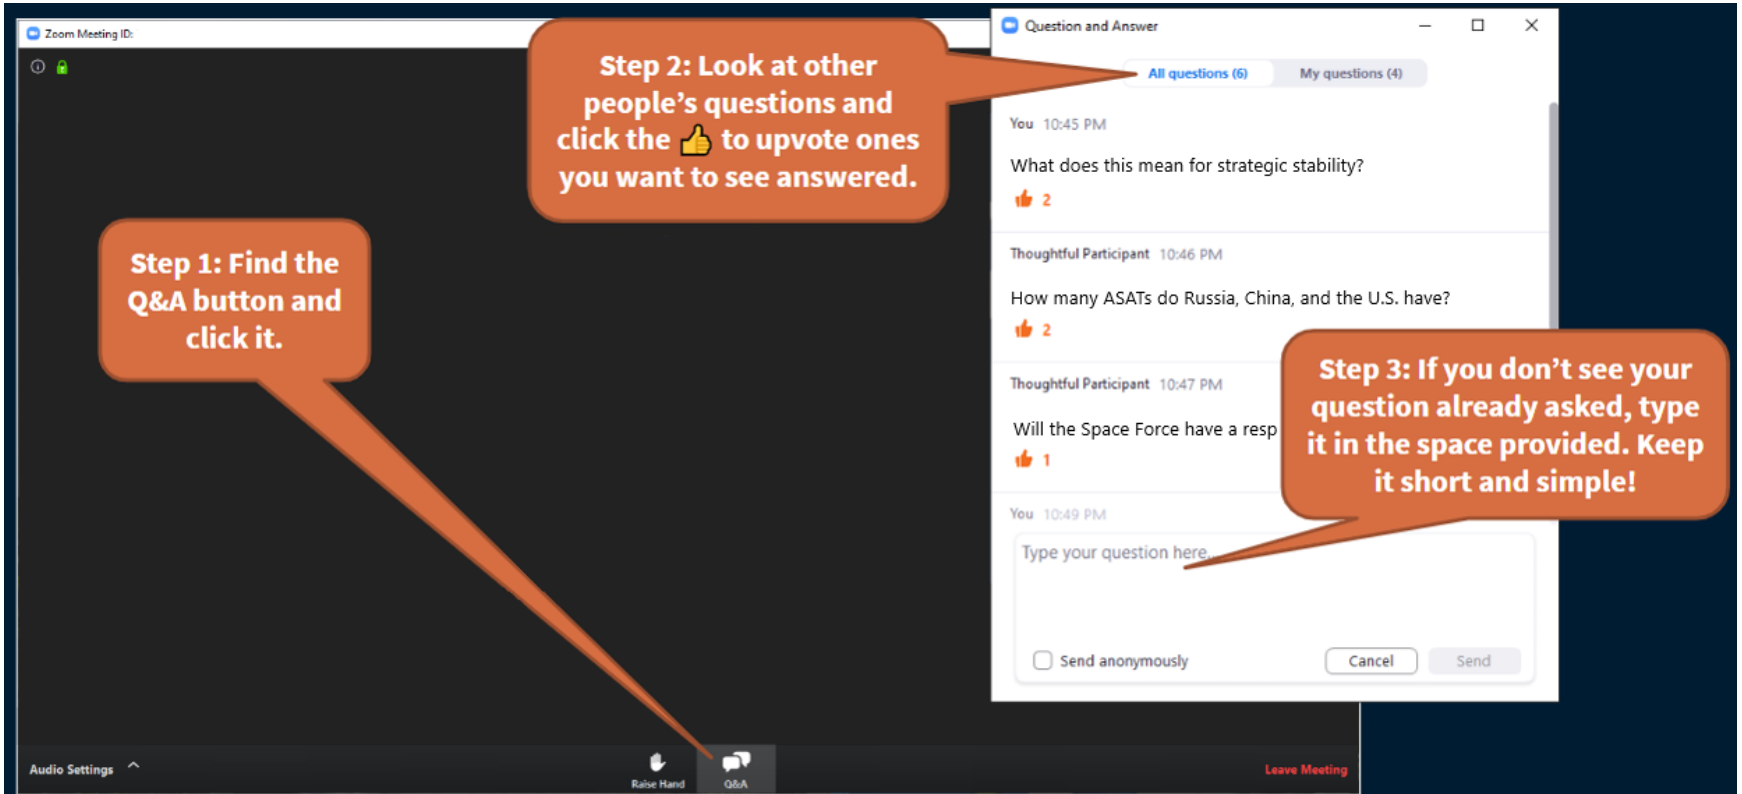

Brian Weeden
Moderator
SWF

How to ask Questions

Step 1: Find the Q&A button and click it.

Step 2: Look at other people's questions and click the 👍 to upvote ones you want to see answered.

Step 3: If you don't see your question already asked, type it in the space provided. Keep it short and simple!

The screenshot shows a Zoom meeting interface with a 'Question and Answer' panel on the right. The panel displays a list of questions and answers. The first question is 'What does this mean for strategic stability?' with 2 upvotes. The second question is 'How many ASATs do Russia, China, and the U.S. have?' with 2 upvotes. The third question is 'Will the Space Force have a resp' with 1 upvote. Below the list is a text input field with the placeholder 'Type your question here.' and a 'Send' button. There is also a 'Send anonymously' checkbox. The Zoom meeting controls at the bottom show 'Audio Settings', 'Raise Hand', 'Q&A', and 'Leave Meeting'.

PANEL 1: CIVIL SOCIETY

David Kendall
Outer Space Institute
Canada

Jean-Jacques Tortora
European Space Policy
Institute
Austria

Guoyu Wang
Beijing Institute of
Technology
China
